We have been contacted by the Management of this building to provide a pesticide application to your suite/House for the elimination of BEDBUGS.

The insecticides being used is IMIDACLOPRID PCP# 32524 (21% BETA 'CYFLUTHRIN 10.5% active ingredient).

As there may be a health hazard involved during the application of the pesticide, we require that you vacate your suite     AM to    PM on    .

We ask your co-operation in carrying out the following instructions prior to the vacate time shown above.

Strip linens from all the beds. Put linens, blankets and pillows from beds in plastic bags for later laundry or dry cleaning. Clean items must be put in hot dryer for at least 30 minutes. Nothing should be left on bed. Please leave box spring and mattress on frame and allow space for standing the mattress. (we will move these as we treat your bedroom).

Remove all items from the dresser drawers and place on kitchen table or inside bathtub. All clothes and linens should be put through hot dryer for at least 30 minutes. Please leave empty drawers in dressers.

Remove all items from shelf and floor areas and all hanging clothes in linen, broom and storage closets and place in center of kitchen floor.

Remove all items from couches, loveseats and open day beds. We will spray the underside of box spring, sofas, chairs etc. Move all furniture 12" from walls in all rooms except kitchen.

All pets must be taken out of the building for the time period shown above. Fish tanks (if any) must have their pumps shut off and tank opening sealed with plastic film. Please allow room for accessibility to beds, dressers and furniture as the technicians must be able to move around these items.

NOTE: On re-entry to your suite, no special clean-up is required; Do not wash baseboard area's: however, fresh linens and blankets must be used on all beds.

Where pregnancies, allergies, illness or other unusual circumstances occur, occupants may wish to remain out of the premises for periods longer than those indicated above. If you require medical information, please contact Poison Control Center at 1-800-332-1414. For chemical information, please contact Edmonton Exterminators Ltd.

PROPER PREPARATION OF YOUR SUITE/HOUSE IS NECESSARY FOR AN EFFECTIVE TREATMENT.
