We have been contracted by Management to provide a pesticide application to your suite/unit for the elimination of COCKROACHES. (Baiting)

The insecticide being used is:

Seclira P.C.P 33424 Active Ingredient: Dinotefuran 0.50%

On at .

Edmonton Exterminators will be coming to bait your suite for Cockroaches. There is no preparation needed and you do not have to vacate your suite. It is important that all food sources be in sealed containers, and any food particles lying around are swept or vacuumed for better success in the elimination of cockroaches.

Thank you for your co-operation
