We have been contracted by Management to provide a pesticide application to your unit for the elimination of COCKROACHES. (Spray & Fog)

**The insecticide being used is: CYHALOTHRIN PCP# 27428 (.03%)
PYRETHRINS PCP# 15330 (1%)**

**As there may be a health hazard involved during the application of the pesticide, we require that you vacate your suite/unit from AM, to PM
On . We ask your co-operation in carrying out the following instructions prior to the vacate time as shown above.**

Remove all items from upper closet shelves and baseboard areas, including bedroom, linen and storage closets. Move all furniture in ALL rooms at least one foot away from walls to enable treatment to be applied to baseboard areas.

Remove all items from kitchen cupboards, drawers, countertops and place on kitchen table and cover with plastic, sheet or blanket, also remove all items from bathroom cupboards and vanities.

All pets must be taken out of your suite/unit for the required time above. Fish tanks (if any) must have their pumps shut off and tank opening sealed with plastic film.

**NOTE: On re-entry to your suite, no special clean-up is required. however, a non-adhesive shelving paper or paper towels must be placed in all kitchen cupboards and drawers before returning any items. Countertops, stove and fridge tops should be wiped off. If you require medical information, please contact the following:
Poison Control Centre 1-800-332-1414**
